

SAFETY DATA SHEET

1. Identification

Product identifier	SIR-CHEM [®]	DRY POWDER 68 BLUE
Other means of identification	Not available.	
Recommended use	Non-destructive to	esting.
Recommended restrictions	None known.	
Manufacturer / Importer / Suppli	er / Distributor i	nformation
Company name	Circle Systems, I	nc.
Address	1210 Osborne Road	
	St. Marys, GA 31	558
Telephone	912-729+2735	
E-mail	customerservice@circlesafe.com	
Emergency phone number	Chem-Tel	800-255-3924 (US & Canada); +1-813-248-0585 (International)

2. Hazard(s) identification

Physical hazards	Not classified.
Health hazards	Not classified.
OSHA defined hazards	Combustible dust.
Label elements	
Hazard symbol	None.
Signal word	Warning.
Hazard statement	May form combustible dust concentrations in air.
Precautionary statement	
Prevention	Keep away from heat/sparks/open flames/hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Prevent dust accumulation to minimize explosion hazard.
Response	Remove and wash contaminated clothing before re-use. In case of fire: Use appropriate media for extinction.
Storage	Store away from incompatible materials.
Disposal	Dispose of contents/containers in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	Not classified.
Supplemental information	Not applicable.

3. Composition/information on ingredients

Mixtures		
Chemical name	CAS number	%
Iron Powder	7439-89-6	> 95
Pigment	15792-67-3	< 5

4. First-aid measures	
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Do not rub eyes. Rinse with water. Get medical attention if irritation develops and
Ingestion	persists.
	Rinse mouth. Get medical attention if symptoms occur.

Most important	Dust may cause eye, skin and resp	iratory tract irritation	
symptoms/effects, acute and delayed			
Indication of immediate medical attention and special treatment needed	Provide general supportive measur	es and treat symptomatically.	
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.		
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical pour carefully to avoid creating airborne		ply extinguishing media
Unsuitable extinguishing media	Do not use water jet as an extingui	sher, as this will spread the fire.	
Specific hazards arising from the chemical	Explosion hazard: Avoid generating and in the presence of an ignition s		
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus	and full protective clothing mus	st be worn in case of fire.
Fire-fighting equipment/instructions	In case of fire and/or explosion do r can do so without risk. Use water s		
General fire hazards	Heat may cause the containers to e	explode. May form combustible	dust concentrations in air.
6. Accidental release mea	sures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away surfaces, as these may form an exp sufficient concentration. Use only n equipment. Ensure adequate ventil spillages cannot be contained.	losive mixture if they are releas on-sparking tools. Wear approp	ed into the atmosphere in riate personal protective
Methods and materials for containment and cleaning up	ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).		
	Large Spills: Sweep or shovel up m Following product recovery, flush a		eled container for waste.
	Small Spills: Collect dust using a va	acuum cleaner equipped with H	EPA filter.
	Never return spills to original contai SDS.	ners for re-use. For waste dispo	osal, see section 13 of the
Environmental precautions	Avoid discharge into drains, water of	courses or onto the ground.	
7. Handling and storage			
Precautions for safe handling	Minimize dust generation and accur ensure that dusts do not accumulat charges when subjected to the frict precautions, such as electrical grou- exhaust ventilation is recommender Observe good industrial hygiene pr	e on surfaces. Dry powders car on of transfer and mixing opera inding and bonding, or inert atm d. Wear appropriate personal pr	h build static electricity tions. Provide adequate nospheres. Explosion proof rotective equipment.
Conditions for safe storage, including any incompatibilities	Keep containers tightly closed in a incompatible materials (see Section flame.		
8. Exposure controls/per	sonal protection		
Occupational exposure limits			
US ACGIH Threshold Limit V	alues		
Components	Туре	Value	Form
Pigment (CAS 15792-67-3)	TWA	1 mg/m3	Respirable fraction

US NIOSH Pocket Guide to Chemical Hazards: Recommended exposure limit (REL)

Components	Туре	Value
Pigment (CAS 15792-67-3)	TWA	2 mg/m3
Biological limit values	No biological exposure limits noted f	or the ingredient(s).
Exposure guidelines	No exposure standards allocated.	
Appropriate engineering controls	air changes per hour) should be use applicable, use process enclosures,	thaust ventilation. Good general ventilation (typically 10 d. Ventilation rates should be matched to conditions. If local exhaust ventilation, or other engineering controls to nmended exposure limits. If exposure limits have not levels to an acceptable level.
Individual protection measure Eye/face protection	es, such as personal protective equip Wear safety glasses with side shield	
Skin protection		
Hand protection	For prolonged or repeated skin cont	act use suitable protective gloves.
Other	Wear suitable protective clothing.	
Respiratory protection		ain airborne concentrations below recommended exposur ceptable level (in countries where exposure limits have no pirator must be worn.
Thermal hazards	Wear appropriate thermal protective	clothing, when necessary.
General hygiene considerations	such as washing after handling the r	oke. Always observe good personal hygiene measures, naterial and before eating, drinking, and/or smoking. otectve equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Solid.
Form	Powder.
Color	Blue.
Odor	Odorless
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	2795 °F (1535 °C)
Initial boiling point and boiling range	Not available.
Flash point	Not relevant.
Evaporation rate	Not relevant.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit – lower (%)	Not relevant.
Flammability limit – upper (%)	Not relevant.
Éxplosive limit – lower (%)	Not available. Not
Explosive limit – upper (%)	available. Not
Vapor pressure	relevant.
Vapor density	Not relevant.
Specific gravity	2.5 (68 °F (20 °C))
Solubility(ies)	Insoluble in water.
Partition coefficient (n-octanol/water)	Not relevant.
Auto-ignition temperature	Not relevant
Decomposition temperature	Not available.
Viscosity	Not relevant.

Other information

VOC (Weight %)

Not applicable.

10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous	No dangerous reaction known under conditions of normal use.
reactions Conditions to avoid	Keep away from heat, sparks and open flame. Minimize dust generation and accumulation. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition	No hazardous decomposition products are known.
products	
11. Toxicological information	
Information on likely routes of e	-
Ingestion	Expected to be a low ingestion hazard.
Inhalation	Inhalation of dusts may cause respiratory
Skin contact	irritation. Dust or powder may irritate the skin.
Eye contact	Dust may irritate the eyes.
Symptoms related to the physical, chemical and toxicological characteristics Information on toxicological effe	Dust may cause eye, skin and respiratory tract irritation.
Acute toxicity	Expected to be a low hazard for usual industrial or commercial handling by trained personnel.
Components	Species Test Results
Iron Powder (CAS 7439-89-6)	
Acute	
Oral	
LD50	Rat 30 g/kg
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/eye	Direct contact with eyes may cause temporary irritation.
irritation	
Respiratory sensitization	Not a respiratory sensitizer.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. This
Reproductive toxicity	product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity -	Not classified.
single exposure Specific target organ toxicity –	Not classified.
repeated exposure	
Aspiration hazard	Not an aspiration hazard.
Chronic effects	Prolonged inhalation may be harmful.
12. Ecological information	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the
Persistence and degradability	possibility that large or frequent spills can have a harmful or damaging effect on the environment No data is available on the degradability of this product.
Bioaccumulative potential	No data available for this product.
Mobility in soil	Not available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Waste from residues / unused products	Dispose of contents/container in accordance with local/regional/national/international regulation Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
14. Transport information	
DOT	
Not regulated as dangerous	goods.
ΙΑΤΑ	
Not regulated as dangerous	goods.
IMDG	
Not regulated as dangerous	goods.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.
15. Regulatory information	
US federal regulations	This product is a "Hazardous Chemical" as defined by the OSHA Hazard
5	Communication Standard, 29 CFR 1910.1200.
	All components are on the U.S. EPA TSCA Inventory List.
TSCA Section 12(b) Export I	Notification (40 CFR 707, Subpt D)
Not regulated.	
US OSHA Specifically Regul Not listed.	ated Substances (29 CFR 1910.1001-1050)
