

## IMMUNOL® 1228-2

### ADDITIVE

IMMUNOL® 1228-2 is an additive for use in Non Destructive Test applications such as Ultrasonic inspection or Hydrostatic (or pressure) testing. It provides rust protection and reduced surface tension to water baths used for immersion testing of these types. It is recommended for systems constructed of testing steel and aluminum. This version provides much lower surface tension to water than the 1228 version. Protection against flash rusting and short-term indoor storage provided. Product will not impede ultrasonic waves from transducer. It improves with agitation or rapid recirculation, use IMMUNOL® 1228.

### Applications

Used mixed with water at concentration from 1-2%. Add to water bath. Compatible with deionized, softened, or municipal water. Immerse parts to be tested in bath containing IMMUNOL® 1228-2.

### Health, Safety and Handling

Please consult the Safety Data Sheet (SDS) for information on storage, safe handling and disposal. The conditions or methods of handling, storage, use and disposal of the product are beyond our reasonable control - we assume no liability for any ineffectiveness of the product or any injury or damage, arising out of or in connection with these conditions.

### The Benefits

- Enhanced surface tension reduction
- Non-flammable
- Stainless to metals
- Won't turn rancid
- Leaves invisible protective dry film

### Properties

| PROPERTY                   | TYPICAL VALUE     | UNIT    |
|----------------------------|-------------------|---------|
| Form                       | liquid            |         |
| Color                      | Clear transparent |         |
| Density                    | 8.73              | lbs/gal |
| Specific Gravity at 25 ° F | 1.048             |         |
| pH at 25 ° F               | 9.0 - 9.4         | °F      |
